

Did you know:

- 70% of employees live paycheck to paycheck, regardless of their income?
- Up to 40% waste 20+ hours a month dealing with their personal financial problems?
- The #1 cause of stress is personal finance?

Here's what past attendees have said:

"I feel like I just got a raise."

"I can finally see the light at the end of the tunnel."

"I now know what steps to take to improve my situation."

As a result, studies show that most employees spend more time worrying about finances and less time being productive. Financial education improves morale, increases productivity and decreases turnover.

Offer your employees Money Metrics @Work - the chance to learn common sense principles about practical money management that will both **reduce their stress and raise their productivity!**

Your employees will learn how to:

- Be smart about credit
- Get organized and get control
- Reduce or eliminate debt
- Create a practical spending plan
- Maximize their mortgage options

Contact us today at **425-373-4045** to schedule a **Money Metrics Workshop** for your employees

The Money Metrics Workshop is 100% education. We do not sell product or services during the workshop. Most workshops are scheduled for lunchtime. All attendees are eligible for post-workshop services.
